Global's Certified Products are in compliance with the stringent emission guidelines set by the GREENGUARD Environmental Institute and include all Upholstered Seating. To obtain a GREENGUARD or GREENGUARD Gold Certificate for any product, please go to the Environmental Commitment section on our website www.globalfurnituregroup.com and click on "GREENGUARD".

level™ certification, based on the ANSI/BIFMA e3-2012 furniture sustainability standard, sets furniture manufacturers on a path toward greater sustainability over time. Based on environmental and social criteria set forth in the standard, a product's entire supply chain is assessed.

Certification assessment includes an evaluation of specific corporate policies and guidelines and an assessment of associated company manufacturing facilities. Products must meet quantifiable milestones of environmental and social performance at every step of development.

The quantitative assessment addresses four categories: material use, energy and atmosphere impacts, human and ecosystem health and social responsibility.

Manufacturers earn points in each of the four categories. The level™ brand and its numeric rating of 1, 2 or 3 indicate what threshold of certification a product has achieved. level™ 3 is the highest rating.

All products with this designation are suitable for FedEx and UPS shipment throughout the United States.

ERGONOMIC FEATURES & BENEFITS

EACH GLOBAL CHAIR IS BUILT WITH FEATURES THAT ARE ERGONOMICALLY DESIGNED TO PROMOTE GOOD POSTURE AND PROVIDE MAXIMUM COMFORT. WHILE FULLY SUPPORTING YOUR BODY, THESE FEATURES SHOULD ALSO ALLOW YOU TO ADJUST YOUR CHAIR TO FIT YOU.

TENSION ADJUSTMENT

Increase or decrease to match body weight. Allows you to rock comfortably, without heavy pushing, reducing muscle fatigue.

CHAIR TILT LOCK

Lock the tilt movement in position(s) to accommodate your working posture. Allows you to lock your chair in a comfortable and supportive position. (Can be either single position or infinite style).

SEAT HEIGHT

Raise or lower to allow your feet to rest flat on the floor. Avoids pressure under your thighs, easing blood flow.

BACK HEIGHT

Raise or lower to position lumbar support in your lumbar area. Reduces likelihood of back pain.

SEAT DEPTH

Change the depth of the seat to accommodate the length of your thighs. Keeps your back in contact with the backrest while avoiding pressure behind your knees.

FORWARD SEAT ANGLE

Allows chair to tilt forward changing the angle of your thighs in relation to the floor. Helps reduce disc pressure during forward leaning tasks.

BACK ANGLE

Adjust to change the angle of your torso in relation to your thighs. Helps reduce disc pressure and relaxes your back muscles.

ARM HEIGHT

Raise or lower to support your forearms. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

KNEE-TILT MOVEMENT

Chair tilt pivot point is toward the front of the seat. Stability is maintained as the user reclines, keeping their feet on the floor and maintaining the same torso to thigh angle.

SYNCHRO-TILT MOVEMENT

The seat pivots at the center point, while the backrest reclines at a faster rate than the seat, increasing the angle between the user's torso and thighs. Enhances comfort and encourages dynamic body movement.

WATERFALL SEAT EDGE

Reduces pressure at the back of the knee, contributing to good blood flow.

CONTOURED CUSHION

Supports the body effectively, allowing you to sit longer without discomfort.

VIBRATING SEAT & BACK

Soothing effect contributes to your relaxation during work breaks.

WIDTH ADJUSTABLE ARMS

Allows outward movement of armrests to match shoulder breadth. Ensures armrests properly support Forearms, reducing muscular efforts in neck and Shoulders.

ARM ROTATION

Rotate armcaps to support your forearms in various positions. Reduces muscular effort in neck and shoulders minimizing risk of pain.

CENTER TILT

Chair tilts at the center point of the seat allowing you to recline while maintaining the same torso to thigh angle. When your feet are well supported, blood flow is enhanced.

SOFT DESCENT PNEUMATIC LIFT

Gently and gradually lowering the seat helps you easily select proper seat height without causing a jerking motion.

LUMBAR DEPTH ADJUSTMENT

Increase or decrease curvature of the back to match the profile of your lower back. Enhances comfort and support in the lower lumber area.

MAXIMIZING YOUR EGRONOMIC SEATING

- Always select a chair that is designed for the type of work you perform and make certain the chair is comfortable for the length of time spent using it.
- Ensure that the seat and back cushions are contoured to fit your body, which will help eliminate pressure points.
- An ergonomically designed chair should allow changing positions easily.
- As you work, reposition yourself throughout the day to reduce strain and stress on specific muscle groups. If you change job functions, adjust your chair to fit the new task.
- Proper ergonomic seating should help eliminate many of the work related injuries that result from poor posture and poorly designed chairs.

CHAIR SAFETY TIPS

Common sense guidelines to ensure that your Global chair will provide many years of comfort and service in a safe and productive environment:

- Always read and follow assembly instructions. Make sure that all of the pieces of your Global chair are installed in the proper order to ensure structural integrity.
- Ensure that chair casters are fully inserted into the base of the unit.
- Inspect your chair for loose or worn parts at least once a year.
- Always keep the base of your chair completely on the floor.
- Most Global chairs are equipped with casters for use on carpeted surfaces. Other flooring surfaces may require different casters.
- Speak to your Global Sales Representative or refer to the Casters Section of this Price Book for appropriate custom selections.
- Many Global office chairs are equipped with tilt tension controls on the seating mechanism. The tension control compensates for different body weights and postures. Always ensure that the control is properly adjusted for a smooth and controlled tilt motion. Your Global Sales Representative can demonstrate the proper use of all the adjustments on your office chair.
- Do not stand on your Global chair or sit on the arms of your chair.
- Do not put electrical appliances on chairs. Even fire retardant fabrics can be damaged when exposed to direct heat or flame.
- Choose the right chair for your work environment. Global offers a full line of Intensive Use, Multi-Shift and Specialized chairs for environments with demanding health or safety requirements. Your Global Sales Representative is trained to help you make the right choice for your workplace.

THE ASSOCIATION FOR CONTRACT TEXTILES (ACT) HAS DEVELOPED THE FOLLOWING PERFORMANCE GUIDELINES TO MAKE FABRIC SPECIFICATION EASIER. THE FIVE SYMBOLS GIVE ARCHITECTS, DESIGNERS AND END USERS A VAST AMOUNT OF PERFORMANCE INFORMATION IN A SUCCINCT, VISUAL WAY. THIS CHART LISTS THE REQUIRED TESTS THAT CORRESPOND TO SPECIFIC END USES. AN EXPLANATION OF THE SYMBOL ALSO APPEARS.

FIRE RETARDANCY

Flammability testing determines a fabric's performance and resistance to burning.

APPLICATION	PASSES
Upholstery	California bulletin 117, section E.
Panels and upholstered walls	ASTM E 84-03 Class A or Class 1 (unadhered method).

COLOR FASTNESS TO WET & DRY CROCKING

Color fastness to wet & dry crocking refers to the rubbing off of color from the fabric onto clothing, hands or other materials and can occur under wet or dry conditions.

APPLICATION	PASSES
Upholstery	AATCC 8-2001 Dry crocking. Class 4 minimum. Wet crocking, Class 3 minimum.
Panels and upholstered walls	AATCC 8-2001 E 84 (unadhered method).

COLOR FASTNESS TO LIGHT

Color fastness to light is the degree to which fabric will retain its color when exposed to light.

APPLICATION	PASSES
Upholstery	AATCC option 2-2003 or AATCC - option 3-2003. Class 4 minimum of 40 hours.
Panels and upholstered walls	AATCC option 2-2003 or AATCC - option 3-2003. Class 4 minimum of 40 hours.

PHYSICAL PROPERTIES

Three physical property tests include: 1 - Brush pill test to determine a fabric's pilling (the formation of fuzzy galls of fiber on the surface of a fabric). 2 - Breaking/tensile strength is the ability of a fabric to withstand tension without breaking or tearing. 3 - Seam slippage is the pulling apart of fabrics at the seams.

APPLICATION	PASSES
Upholstery	Brush pill ASTM D3511-02, 3 minimum. Breaking strength ASTM D5034-95 (2001) 50 lbs. minimum in warp & weft. Seam slippage ASTM D4034 25 lbs. minimum in warp & weft.
Panels and upholstered walls	Breaking strength ASTM D5034-95 (2001) (grab test). 35 lbs. minimum in warp & weft.

ABRASION

Abrasion is the ability of a fabric to withstand damage from wear and rubbing. There is a general contract specification as well as a heavy duty specification.

APPLICATION	PASSES
General contract upholstery	ASTM D4157-02 (#10 cotton duck) 15,000 double rubs, Wyzenbeek method. ASTM D4966-98 (12 KPA pressure) 20,000 double rubs, Martindale method.
Heavy duty upholstery	ASTM D4157-02 (#10 cotton duck) 30,000 double rubs, Wyzenbeek method. ASTM D4966-98 (12 KPA pressure) 40,000 double rubs, Martindale method.

Ergonomic features:

STANDARD FEATURES

- Include chairs combine exceptional comfort with refined elegance. The series is Global's first to offer new kinetic motion, weight balanced synchronous tilt providing smooth action and support. Include goes beyond the boardroom, from collaboration to light work and executive offices.
- Available in two back heights. Backs are contoured with an inner flexible structure and lumbar with over-molded foam and includes an integrated, passive adjustment lumbar pad to create a new level of comfort in an upholstered back.
- The durable, injected molded foam seat includes a waterfall front edge and an under seat structure with a sleek, fastener-free aesthetic.
- The series offers fixed arm and armless models without seat depth adjustment (IN30 models) and models with adjustable arms and seat depth (IN40 models).
- The polished aluminum fixed arm is standard with a flush-mount, soft, durable and warm to the touch urethane (**SSU**) arm cap. Select arm cap finish in standard Black (**BLK**) or optional Kalua (**KAL**) and Shadow (**SHW**), see upcharges.
- Adjustable arms (IN40 models) include 4" height and 1.5" width adjustable arms (allowing an additional 3" of between arm clearance). Armcaps move forward/backward and pivot 30 degrees in/out. Adjustable arms are standard with Black finish. Polished Aluminum armpost accent is available, see upcharge.
- A left side, adjustable seat depth control handle is integrated in the seat of adjustable arm (IN40) models. Seat adjusts 2".
- A (**4Z**) 4" gas cylinder is standard and matches the selected base finish. The cylinder supports a 17" to 21" seat height with a max arm height clearing tables with under-surface clearance of 27". Note, higher range cylinders are not recommended with fixed arm models and may result in arm contact with table edge. Check clearance to avoid damage.
- Five prong, injection molded, fiberglass reinforced Black nylon base (**B7)** is standard. Polished aluminum base is optional. See upcharge.
- C82, 2.5" dual wheel carpet casters (**82**), standard. C82R, Hard floor caster (**8R**) are optional. See upcharge.
- The series is available to specify with two textiles, one for the seat cushion and one for the back. For pricing, start with the base price and add upcharges for both back graded textile upcharge and the seat graded textile upcharge. Upholstery options include fabric, coated fabric or leather.
- To minimize potential for cleaning liquids and spills entering the seat cushion, a moisture barrier (**MB**) creates a protective layer under permeable textiles, see upcharge. Moisture barrier is not available with sealed seams.
- For approved coated textiles, sealed seat seams (**SE**) are available, see upcharge. Sealing the seams of water resistent materials ensures the seams are protected. Note, some puckering may occur at curves and corners due to the added material thickness.
- Chairs ship (**PAS**) Partially assembled, standard.
- Include's weight capacity is 300 lbs and is covered under Global's limited lifetime warranty.
- Note the Blended Textile Matrix is not applicable to this series when specified as noted above. For other multi-fabric applications, contact Customer Care.

model 6785

STANDARD FEATURES

- A comfortable, high-quality, lightweight, stacking chair that is incredibly strong and durable.
- Bakhita is an all polymer chair intended for use indoors or outdoors. Products must be stored inside during extreme and inclement weather. See Global's Outdoor Furniture warranty for additional information.
- Weather resistant, UV and stain resistant, with a modern design.
- Standard height models (6750, 6751) are suitable for use in MRI rooms.
- Chairs are simultaneously molded with two different materials. Inside is a structural fiberglass frame for strength. Outside is a durable polypropylene light fast compound.
- Armchairs and Armless Chairs are finished with a smooth surface. Bar Stools and Counter Stools are finished with a slightly textured surface.
- Upholstered seats will only fit on a frame made for this purpose, it is not possible to add an upholstered seat onto an existing all plastic chair in the field.
- Upholstered seats are fixed and non-removable.
- Chair legs are equipped with translucent non-marking glides as standard. Suitable for outdoor environments, carpet and hard surface flooring.
- Check textile availability prior to specifying upholstery material.
- All Bakhita products (except upholstered models) are only available through Global's InStock program. Contact CustomerCare for lead times and quotation for quantities beyond InStock inventory.
- For outdoor use Global recommends marine grade vinyls or Sunbrella fabrics with UV resistance.
- Chairs are available in 3 plastic colors: Alloy (**ALY**), Char (**CHA**), and Milk (**MLK**).
- Tables are available in standard or bar height and are suitable for outdoor use.
- Tables are available with a Silver base and Milk (**MLK**) top only.
- Table tops are constructed from technopolymer compounds with high structural, heat and abrasion resistance. Tops are UV, shock and stain resistant.
- Bakhita achieves its strength and durability using glass filled polymer. Evidence of this material may be visible on the surface and is often more evident in darker colors.

STANDARD FEATURES

- Sonic multi-purpose series includes: four-leg, sled base, 5 star base task, and fixed pedestal base and beam seating in addition to bar, counter and height adjustable stools.
- Four-legged/freestanding models are standard with a straight leg or with a "WS" wall saver frame and durable polypropylene glides.
- WS models have a wall saver frame design; the base touches the wall before the upper back to protect the wall from damage.
- Four-legged/freestanding chairs are available with painted or chrome legs.
- Models are available with or without arms. As of January 1, 2025, arms will match the poly seat color selection. For Black arms (to match previous standard), specify **BLK** for arm finish selection.
- Freestanding models are stackable up to 5 high on floor and 10 high on dolly 6517WS. **Caster models do not stack.**
- Tablet arms are available on all seated height base types (not available on stools).
- Tablet arms are extremely rugged and meet ANSI-BIFMA testing requirements. Tablet hinges up to allow ease of egress. Tablet slides forward and back to accommodate any body size comfortably. Tablet models do not stack.
- Standard tablet (**D8**) size is 18"d x 14 1/2"w and is made of black polymer. Tablets are attached at the left or right (as seated). Optional 18.5"D x 18.5"W high pressure laminate writing tablet is available. Core is hardwood veneer plywood with radiused edge finished in clear lacquer. Please specify.
- Sonic beam seating consists of upper seat units (models 6501, 6502, 6503, 6504, 6505, and 6506) including mounting brackets and all hardware necessary for attachment to beam
- For all beam components, tables and a complete list of available upper seat units, see Beam Seating series.
- Task chairs and height adjustable stools have a five star, reinforced, black nylon base.
- All Sonic models with casters have black, dual-wheel casters. Select caster based on flooring type.
- Pedestal base models provide fixed location seating for use in auditoriums, classrooms, jury boxes, public venues and more. The base must be mounted to the floor (mounting hardware not included). See Pedestal Base Installation Guide for details.
- Upholstery inserts are simple to replace for ease of on-site long term maintenance.
- Mesh back models (MB suffix) are available with Black back frames and Black mesh only.

- Furniture pieces can be used as stand alone items or can be mechanically linked together to form a variety of seating configurations.
- Seat and backrest can be integrated with Bridges tables.
- Corner tables and in-line 6" table modules double as power delivery centers.
- Dedicated seat backrests feature dual USB charging port.
- Some in line 6" table modules are furnished with grommets to support tablets.
- Legs are available in standard Bridges metal painted finishes and anodized aluminum finish.
- Bridges Collaborative Seating upholstery features a single stitch, thick white thread around the edges. The white, wide stitch along with crisp corners are part of its distinctive personality.
- In order to achieve crisp edges and to minimize "pillow" effect caused by taut fabric, the upholstery material has been applied deliberately loose, which may over time, produce puckering of the upholstery surface material. This can be easily corrected by stretching the fabric by hand or during vacuuming.
- Freestanding 17"h table. Central partition divides space under top surface into two 11" deep compartments.
- In order to efficiently utilize fabric yield, all 60" seats and backs feature a seam in the middle. The double stitch seam is sewn with a thin thread, closely matching the upholstery material in color.
- Some complicated fabric patterns prevent pattern matching and will be upholstered without the seam at the discretion of the factory.
- Should you require no middle seam by cutting into the roll, please specify "NO SEAM" at time of your order.
- Check textile availability prior to specifying upholstery material.

OPTIONAL FEATURES

- Optional Anodized Aluminum Leg on all models. Add $79.
- Models BRTS2406BT and BRTS2406BPT include 9.5" x 14.5" swivel tablet. If top is specified in high pressure laminate, tablet will also be manufactured in high pressure laminate.
- Bridges II tables and tablets are offered in the following laminate finishes: Absolute Acajou (**ACJ**), Asian Night (**ASN**), Avant Cherry (**AWC**), Avant Honey (**AWH**), Black (**BLK**), Brushed Cobalt (**BRC**), Clear Maple (**CMB**), Custom Grey (**CGY**), Dark Espresso (**DES**), Designer White (**DWT**), Fashionista (**FAS**), First Class (**FCL**), Noce Biondo (**NBL**), Noce Grigio (**NGL**), Noce Leggero (**NEL**), Noce Medio (**NML**), Quartered Mahogany (**QTM**), Sheer Beauty (**SBY**) Storm Grey (**SOG**), Walnut Heights (**WHE**), White Chocolate (**WHC**) and Winter Cherry (**WCR**). STANDARD FEATURES

- A modular seating series that is composed of modular linking units in straight, curved and corner units. Soft seating models are available with standard height, high and extended high backs. All linking units can be used together in any combination to create a wide variety of layouts.
- The unique tapered legs (swaged legs) are made of welded steel, heavy duty construction, with each leg bolted directly to the frame. The extremely robust construction insures trouble free performance in any environment. All units except for the Laptop Tables have the same leg height of 6.5". The leg height makes it easier to clean under the product.
- Each leg is standard with adjustable black nylon leveling glides and are non-marking. Wood legs and casters are not available.
- All cushions are fixed and non-removable (cushions will not migrate). Perimeter seams feature a decorative single stitch detail, which makes seams lay flat and adds extra seam strength.
- Seating frames are heavy duty with interlocking plywood, puzzle box construction, made for rugged active environments. Seats are high density with highly resilient foam and are equipped with a synthetic rubberized webbing suspension system for extra comfort.
- Front edge or face of the seat, angles slightly inward, so feet have freedom of movement and shoe heels don't rub on the seat. This inward slanting matches the inward angles of the back. Benches and connecting end tables also reflect the inward angles on the front and back faces, so all units coordinate in visual appearance.
- For use in high traffic applications as well as 24/7 environments or for models with 600 lb. standard weight capacity, clean out space between seat and back and /or modular arms, please see the River+ series.
- Most units can be ganged together with a quick connect, disconnect feature. Ganging hardware is standard and is factory installed. Ganging hardware swivels out of sight when not in use.

OPTIONAL FEATURES

- Most tables and seating units can be specified with Power/USB terminals, which includes two power outlets, two double USB terminals and a black 60" three-prong power cord. Each Power/USB module is set in predetermined locations, as shown in the electrical illustrations below. Electrical units must be factory installed.
- To add a Power/USB module: From the electrical illustrations below, please specify **J1**, **W1**, **J2**, **W2**, **J3**, **W4**, **J4**, **W4**, **J6** or **W6** after the product model number. Please note on seating units, if both right and left locations are required, add both **J1**/**J3** or **W1**/**W3** to the model number. Add $997 for each module/location required.
- Power/USB modules are available with either Jet Black (**J**) face plate with black Power/USB receptacles or with a White (**W**) face plate with white Power/USB receptacles.
- Coffee, end and laptop tables are made with high pressure laminate and are offered in the following finishes: Absolute Acajou (**ACJ**), Asian Night (**ASN**), Avant Cherry (**AWC**), Avant Honey (**AWH**), Cloud (**BZD**), Clear Maple (**CMB**), Custom Grey (**CGY**), Dark Espresso (**DES**), Designer White (**DWT**), Fashionista (**FAS**), First Class (**FCL**), Noce Biondo (**NBL**), Noce Grigio (**NGL**), Noce Leggero (**NEL**), Noce Medio (**NML**), Quartered Mahogany (**QTM**), Sheer Beauty (**SBY**), Latte (**SDT**), Walnut Heights (**WHE**), White Chocolate (**WHC**) and Winter Cherry (**WCR**). Sample Layout

ELECTRICAL PLACEMENT

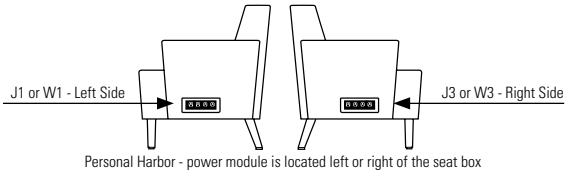
Locations available on left side J1 (black) or W1 (white), right side J3 (black) or W3 (white) or both sides J1/J3 (black) or W1/W3 (white).



Personal Harbor - power module is located left or right of the seat box

STANDARD FEATURES

- River Personal Harbor is a line extension of the popular River modular seating series. For modular series see River price book pages.
- The freestanding soft seating models are available with standard height, high and extended high backs.
- The unique tapered legs (swaged legs) are made of welded steel, heavy duty construction, with each leg bolted directly to the frame. The extremely robust construction insures trouble free performance in any environment. All units have the same leg height of 6.5". The leg height makes it easier to clean under the product.
- Each leg is standard with adjustable black nylon leveling glides and are non-marking. Wood legs and casters are not available.
- All cushions are fixed and non-removable (cushions will not migrate). Perimeter seams feature a decorative single stitch detail, which makes seams lay flat and adds extra seam strength.
- Seating frames are heavy duty with interlocking plywood, puzzle box construction, made for rugged active environments. Seats are high density with highly resilient foam and are equipped with a synthetic rubberized webbing suspension system for extra comfort.
- Front edge or face of the seat, angles slightly inward, so feet have freedom of movement and shoe heels don't rub on the seat. This inward slanting matches the inward angles of the back. Benches and connecting end tables also reflect the inward angles on the front and back faces, so all units coordinate in visual appearance.
- High Traffic (**HT**) units are rated at 350 lbs. active load per seat and 24/7 use. These units have the same puzzle box frame construction except that the framing wood is 1" thick, rotary cut, birch plywood and all arms, seat and back cushions are made with Ultracell Foam.
- High Traffic (**HT**) models are recommend to be specified in textiles that meet or exceed 100,000 double rubs for added abrasion performance.
- Check textile availability prior to specifying upholstery material. Leather not available on River Personal Harbor.

OPTIONAL FEATURES

- Seating units can be specified with Power/USB terminals, which includes two power outlets, two double USB terminals and a black 60" three-prong power cord. Each Power/USB module is set in predetermined locations, as shown in the electrical illustrations below. Electrical units must be factory installed.
- To add a Power/USB module: From the electrical illustrations below, please specify **J1**, **W1**, **J2**, **W2**, **J3**, **W4**, **J4**, **W4**, **J6** or **W6** after the product model number. Please note on seating units, if both right and left locations are required, add both **J1**/**J3** or **W1**/**W3** to the model number. Add $997 for each module/location required.
- Power/USB modules are available with either Jet Black (**J**) face plate with black Power/USB receptacles or with a White (**W**) face plate with white Power/USB receptacles.

STANDARD FEATURES

- A modular series that is composed of straight, curved and corner sections.
- Models with the same seat height can be ganged on ends with no upholstered arms. Ganging hardware is standard on armless ends of models (factory installed) and swivels out of the way when not in use.
- Seating frames are constructed of heavy duty plywood, and are made for active environments. Seats are high density with highly resilient foam.
- River+ seating is rated for an active weight up to 600 lbs. per seat and 24/7 use.
- For 24/7 use and/or heavy duty application use, Global's Heavy Duty warranty is only on models specified with performance textiles, rated for 150,000 double rubs or more.
- A clean-out gap is created by seat-to-back connector brackets available in three finishes.
- The standard, 6.5" tapered legs are made of welded steel. Front legs of River+ lounge models are straight. Back legs are angled.
- Models with a shelf are only available with 6.5" high legs. Back legs on these models are standard with (**E6**) EXTENDED legs.
- Legs include Black nylon, non-marking, height adjustable glides.
- Upholstery options include fabric or vinyl. Leather upholstery is not available.
- All units are shipped fully assembled.
- Arms on upholstered arm models are factory installed and not removeable.
- Modular, aluminum loop arms are sold separately and available with or without nylon armcaps. These relocatable arms are field installed at any seat to back connector location.
- A 10" deep, 1" thick shelf is available on the back of select corner, curved, two and three seat models in many thermally fused laminate finishes with matching edge.
- Shelf supports are aluminum with accessory hook in three finishes. Weight capacity: Shelf - 50lbs per seat; Hook - 20lbs each.
- Back shelf heights align with the model's back height. See shelf heights diagrams for details.
- Check textile availability prior to specifying upholstery material.
- The series is available to specify with two textiles, one for the seat cushion and one for the back, arms and front rail (see model image).
- For pricing, start with the base price and add both back/arms graded textile upcharge and the seat graded textile upcharge.
- The blended textile matrix does not apply to this series.

OPTIONAL FEATURES

- Optional 6.5" floor mount legs (F6) are available. Shelf back models are available with EXTENDED floor mount legs (F6).
- Optional 8" (**S8**) and 8" floor mount legs (**F8**) are available on models without shelves. Seat heights change to 19" high. Upcharges vary.
- To match back legs of shelf-back models with models without shelf, select (**C6**) leg with counterweight. Upcharges vary.
- Up to two power units are available on seating models, except 90 and 120 corner units. Add $698 upcharge per unit.
- Each power unit includes one AC outlet and two USB-A,10 watt charging ports. Location options include front or side. Back power location option available on models with back shelf (except corners). See electrical placement diagrams.
- Power units are available in either Jet Black (**J**) or White (**W**) with 120", three-prong matching cords.
- Tamperproof fasteners can be requested for a higher level of safety. Please specify (**TP**) - see each model for upcharge. Ganging brackets are not included when Tamper Proof (**TP**) option is selected.
- Sealed seams are available only for approved coated textiles. Specify (**SSS**) for sealed seat seams or (**SBS**) for sealed back and arm seams. Contact customer care for details. See models for upcharge.
- To reduce ease of movement, counterweights can be added to any model. Specify (**CW**). See individual model for weight and upcharge.
- Underside of seat is standard with black lining (**SB**).
- For improved housekeeping and infection control practices, the underside of the seat can be finished with black vinyl and sealed to prevent penetration of liquids. Specify (**SP**) - see each model for upcharge.
- Steel bottom option provides tamperproof protection (includes tamperproof screws). Specify (**BS**). Upcharges vary. Note: electrical option and ganging are not available with steel bottom.

18" Dia. Round Laptop Table model 7743

River+ Seating and Benches

For River+ seating, please see page 347
For River+ benches, please see page 365

STANDARD FEATURES

- A modular series that is composed of straight and curved sections, as well as freestanding units.
- Linking units can be used together in any combination with River+ seating and bench units to create a wide variety of layouts. Ganging hardware is standard and is factory installed. Ganging hardware swivels out of the way when not in use.
- Front and back faces of end (linking) tables angles slightly inwards. This inward slant matches the inward angles of River seating so all units coordinate in visual appearance.
- The standard 6.5", welded steel legs are straight (vertical) as standard. Linking models are optionally available with an angled back leg to visually align with River+ seating units.
- Legs include Black nylon, non-marking, height adjustable glides.
- Tables are made with high pressure laminate. Custom high pressure laminate finishes will be considered upon request.
- Laptop tables have 1" thick laminate tops.
- Laptop table painted metal base finishes are available in Black and Tungsten only.

OPTIONAL FEATURES

- Legs of coffee and end (linking) tables are available in 3" (**S3**) and 8" (**S8**) heights. All leg heights are available with fixed-to-floor (**F3**) and (**F8**) options. Add $106.
- To match adjacent lounge seating, straight front and angled back 6.5" or 8" legs are available on linking/end tables. Specify (**SA**). No upcharge.
- Power units are available on all tables except laptop tables. Each unit includes one AC outlet and two USB-a,10 watt charging ports. Add $661 upcharge per unit.
- Power location options include top, front or end. See electrical placement diagrams. Electrical units must be factory installed.
- Power units are available in either Jet Black (**J**) or White (**W**) with 120", three-prong matching cords.
- Most products can be weighted to reduce the ease of movement. For additional weight options, specify (**CW**). See each model for available additional weight and upcharge.

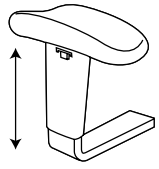
HOW TO SELECT ARMRESTS

Global has a wide selection of armrest to suit almost every work task. Armrest are an important feature of a chair. They reduce stress an tension on the spine, neck and shoulder muscles by supporting the weight of your arms. This makes you more comfortable and ultimately more productive. Height, width and angle adjustable armrests enable you to position your arms at a comfortable working position, based on the task at hand.

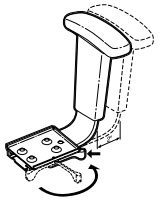
COMFORT TIPS

- Wrists should be in a straight or neutral position - avoid bending your wrists
- When mousing, use whole arm movements instead of flexing your wrist.
- Rest your palm on the mouse pad for support.



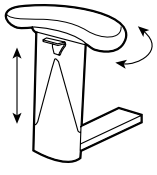
HEIGHT ADJUSTABLE ARMS

- A full range of arms is available with armcaps in self-skinned urethane (SSU).
- Use the features available on Global's adjustable arms to accommodate your ergonomic requirements.



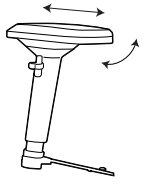
VARI-WIDTH ARM

- Features maximum comfort while enabling you to maintain top productivity levels.
- Easy to use levers enable you to adjust the distance between armrests quickly and simply. An ergonomic feature, Vari-Width maximizes shoulder support as it accommodates the specific width requirements of each user.
- Metal adapter plates provide width adjustability. One adapter plate is attached under each side of the seat. Arms are inserted into the adapter plates.
- Arms extend outward up to 2" on each side. A lever locks each arm in any position.
- Vari-Width is available only with Global's height adjustable arms. The arm chart (on the following pages) specifies all arm options available for the Vari-Width series. Vari-Width is standard on many chairs; they can also be retroactively installed on chairs.
- When ordering, please specify series, arm and (**WA**) ie. Loover 2660-0 (**G5**) and (**WA**). When ordering as retrofit, please specify **2660-0-WA**.



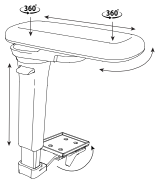
ROTATING ARMCAPS

Rotating armcaps articulate inward and/or outward. This positions the arm to support mousing or keyboarding activities. Rotating armcaps can also be used to narrow the space between the arms for slender people seeking arm support while keyboarding.



SLIDING ARMCAPS

Select arms have sliding armcaps. They can slide over top of the seat to narrow the space between the arms for smaller users. Sliding armcaps also slide forward for arm support for larger users or slide to the rear allowing slender users to sit closer to their worksurface.



HALO ARM

New Halo Arm offers infinite adjustability and comfort for all work styles. Designed to support diverse work habits and body types by featuring:

- 4 1/8" of height adjustment
- Dual independent 360 degree rotation of both the upper arm (with 15 degree lockable increments) and the armcap (with 18 degree stops)
- 12.6" width adjustment with combined armcap and upper arm rotation for a total width adjustment of 26.2" between arms from most inward to most outward positions
- 7.8" total forward backward to backward adjustment with combined armcap and upper arm movement
- Clean, intuitive design with no pinch points, designed for infection control (healthcare friendly)

Care and Cleaning

TEXTILES

Fabrics: To extend the life of your seating upholstered in fabric, regularly dust the chair to prevent airborne particles from penetrating the fabric surface.

For light soiling, use a damp cloth and blot the spot with very slight pressure, taking care never to soak the fabric. Dry with a clean cloth by blotting - never rub fabric. More intense stains can be treated the same way, but with a mild detergent. Always test fabric first in an unseen area before using any cleaning method.

Leather: For regular cleaning, simply use a soft damp cloth, taking care not to soak the leather. For more thorough treatment, soak a soft cloth in mild soap solution and wipe surface in a light circular motion. Repeat with clean water. Allow to dry and polish with a soft dry cloth. Do not use detergents, aerosol sprays or other polishes.

Various Care and Cleaning Methods

- **Water-Based Cleaner:** Spot clean, using the foam only from a water-based cleaning agent, such as a mild detergent or non-solvent upholstery shampoo product. Apply foam with a soft brush in a circular motion. Vacuum when dry. Pretest small area before proceeding.
- **Solvent Cleaner:** Spot clean, using a mild water-free solvent or dry cleaning product. Clean only in a well-ventilated room and avoid any product containing carbon tetrachloride or other toxic materials. Pre-test a small area before proceeding.
- **Water/Solvent Cleaner:** Spot clean with amild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.
- **Vacuum Only:** Clean this fabric only by vacuuming or light brushing to prevent accumulation of dust and grime. Water-based foam cleaning agents of any kind may cause excessive shrinking, staining, or distortion of the surface pile and therefore, should not be used.
- **Crypton Cleaning:** Generally stains are removed with plain water and powdered enzyme detergent. Upholstery foam shampoo, water-based cleaning products and germicidal detergents can be used. Be sure to remove all residue from cleaning products with clean water. Do not use solvent-based cleaners or dry cleaning products.

HARD SURFACES

Wood Veneer Finishes: Waxing or polishing catalyzed finishes is not recommended because this will give a greasy, cloudy or uneven appearance to the product and could void your warranty. Global's conversion varnish is best cleaned by wiping the surface with a damp cloth, followed by a soft dry cloth in the direction of the grain. If the surfaces are heavily soiled, a gentle product like "Windex" can be used, following the same instructions as above.

Laminate & Painted Metal Finishes: Using a soft cloth, simply wipe the surface with a mild soap solution or glass cleaner. Always use a dry cloth and circular motion to prevent streaks.

Sealed Seams (Approved coated textiles only):
This process increases the strength and integrity of the seam for Vinyl textiles, providing additional protection against moisture penetration through the seam and can prevent insects from entering the interior of the upholstered piece through the seams.

Testing must be conducted on every coated textile and approval must be confirmed prior to acceptance of an order requesting sealed seams. When sealed seams are requested on the COM form, and if the coated textile is not an alliance partner, please contact Customer Care on where to submit the 1 yard of material needed for evaluation.

Note: Moisture barrier is not an option in conjunction with sealed seams.

Wood Finishes
For custom stain requests, submit a special request for quotation. Non-standard wood finish orders will incur a one time charge of $250 net to dealer per matching custom wood stain. This one time fee will be valid for 5 years from the time of matching. After 5 years, a new $250 net to dealer charge will apply. All custom wood stain products will receive a 10% list per unit upcharge, included on the special quote. Requests with unit quantities of 30 or more, may be considered for reduced or eliminated upcharge. At time of order, a 3" x 3" color sample is required to be submitted with order. Extended order lead time is required for custom matching and approval process.

File Finishes
All non-standard finishes must be approved by Global prior to acceptance of order and may be subject to an upcharge.

Laminated Tops - Pricing for all non-standard finishes and sizes must be provided by Global Customer Service and may be subject to an upcharge.

Desk Finishes
Because the distinctive characteristics and the nature of wood products cause variations, exact matches are not always possible.

Global has launched a finishes program between marketing companies within the Global Group to match products as best as possible when same finishes are specified.

C.O.M. (Customers Own Material)
Use of Customer's Own Material must be approved by Global prior to acceptance of order. Please refer to page 437 of the Price Book and fill out the Authorization Request Form. Photocopy and use this form as often as necessary. The customer must provide a 12" x 12" fabric sample and advise how the fabric is to be applied. **Fabric yardage requirement will be advised by the factory, and additional yardage may be required if pattern requires matching.** Yardage shown in the List Price Book does not allow for pattern repeat/matching. Send to the address provided on shipping document upon approval from Global. If C.O.M. is difficult to apply or if product shall be modified, extra charges shall be made. Global reserves the right to cancel an order at any time if C.O.M. is inadequate for any reason. Customer's Own Material must be shipped freight and duties paid to our factory. Such shipment must be fully identified with purchaser's order number, RGA # provided by Global, and the item for which material is intended. Performance of C.O.M. when applied to product is the sole responsibility of the purchaser. Global's standard product warranty shall not apply to C.O.M. Use of C.O.M. will not reduce the published list price.

Textile Grading
All products are priced according to their standard fabric and fabric grade. Lower grade fabrics are available (unless otherwise specified) at same price as standard.

The listing of prices for each model indicates the prices for higher upholstery grades. Prices are based on yardage in imperial measurements.

Upholstery Coverings
Slight variations in color may occur between dye lots. Although Global attempts to minimize these variances, they do occur and must be accepted as normal and will not be considered defects.

Yardage
Required yardage (ydg) is based on unmatched materials with widths of 54" for seating, 63" for GPS panels. Yardage calculations are based on imperial measurements.

Arms
A wide selection of arms are available for some series. See Arm Charts for details.

Delays
Global's shipping confirmation will state a shipping date which is Global's best estimate at the time the order is acknowledged. However, Global shall not incur any obligation or liability to Purchaser for failure to ship by specified date unless Global has agreed to an unequivocal shipping date in a separately signed written document executed by its authorized personnel at its head office. In addition, Global shall not be liable for any loss or damage resulting from any delay or failure in shipment or other failure to perform all or any part of the agreement between the parties with respect to the goods shown on the face of the order acknowledgement where such delay, failure, loss or damage is the proximate result of any act of any governmental authority or political subdivision thereof, revolution, riot, civil disorder or disturbance, delay or default in transportation, strike disputes among or between labor unions or other labor disputes, delay or inability in obtaining materials and facilities, fire, flood, act of God or any cause not within the reasonable control of the company, whether of the class of causes enumerated or otherwise.

Returns

A minimum re-stocking charge of 35% is made on all authorized returns for credit or refund, provided goods are received by Global in the condition in which they left the factory. This may increase depending on the type of product. Global's Return Goods Authorization (R.G.A.) numbers must appear prominently on all authorized returns. Global will not be responsible for freight costs. No credit will be given if goods cannot be reused as new. Special order items, non-stock items and C.O.M. products are in no event subject to return. Claims

The carrier signs for all goods received in apparently good order. It is the dealer/purchaser's responsibility to examine goods upon receipt and to file any claims with the carrier for losses or damage to the product occurring during transit, including concealed damage.

Any claims made against Global for apparent defects, errors or shortages must be made by the dealer/purchaser, in writing, within 15 working days after any delivery. Failure by the dealer/purchaser to make any claim against Global within 15 days shall constitute acceptance of the goods and a waiver of any apparent defects, errors or shortages.

Suspension
In the event that the dealer/purchaser defaults in the payment of any sum due to Global, or in the event the dealer/purchaser's financial condition becomes unsatisfactory to Global, Global shall have the right to defer or discontinue shipment of any goods until such time as the default is cured or the dealer/purchaser provides assurance of payment to Global.
