Power beam

A simple freestanding solution that delivers power and data via an elevated spine, making it a lighter and airier solution to a panel-based system. It is ideal for open plan, hybrid and benching spaces.

With multiple connection options for power and data, Power Beam offers easy and convenient access to plug-in devices and height-adjustable tables. It is available in three heights (24", 30", 36") along with a multitude of extension options for seated-height privacy.

Power beam FLX

Combines the lightness and cost effectiveness of a beam solution with the functionality of a panel system. Attach worksurfaces, storage and panels to the Evolve Power Beam to support collaborative and focused work where height adjustable work surfaces are not required. Easily stack panels up to 66" to meet your privacy needs.
